About Your Interest Rate

Your rate is fixed

This means that your interest rate will remain constant over the full term of the loan.

Your rate is variable

This means that your actual rate varies with the market and could be lower or higher than the rate on this form. The variable rate is based upon the [Index] Rate (as published in the [source of index]). For more information on this rate, see reference notes.

- **If your interest rate is variable, it will never exceed 5.000%**
(the maximum allowable [by law] for this loan)
- **Your Annual Percentage Rate (APR) is 5.000%.**
The APR can be different from the Interest Rate since it considers fees and reflects the cost of your loan as a yearly rate. For more information about the APR, see reference notes.

- Your loan may have a variable interest rate that is based on a publicly available index. Your rate is calculated each month, quarter or year by adding a margin to the index rate.
- The interest rate may be higher or lower than your Annual Percentage Rate (APR) because the APR considers fees you pay to obtain the loan, the interest rate, and whether you defer (postpone) payments while in school.

- If the Interest Rate increases, your payments could be higher.

- If you file for bankruptcy you may still be required to pay back this loan.

while enrolled you can still make payments to your loan servicer or directly to the school. More information about repayment deferral or forbearance options is available in your loan agreement.
