About Your Interest Rate

Your rate is fixed

This means that your interest rate will remain constant over the full term of the loan.

Your rate is variable

This means that your actual rate varies with the market and could be lower or higher than the rate on this form. The variable rate is based upon the [Index] Rate (as published in the [source of index]). For more information on this rate, see reference notes.

- If your interest rate is variable, it will never exceed 5.000% (the maximum allowable [by law] for this loan)
- Your Annual Percentage Rate (APR) is 5.000%. The APR can be different from the Interest Rate since it considers fees and reflects the cost of your loan as a yearly rate. For more information about the APR, see reference notes.
